

How 2 Scada Smartwall

Version 1—07/2022

Step 1: Upload your decals.

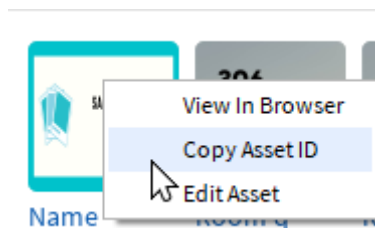

go to www.roblox.com/develop?View=13 and upload your images.

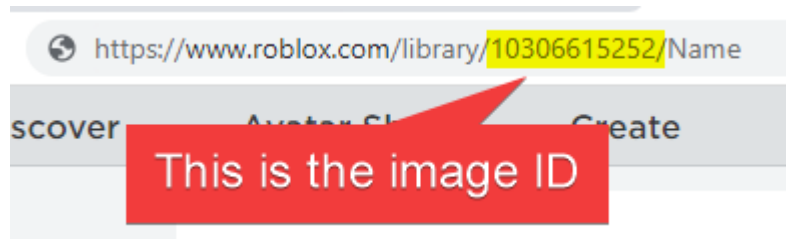

First we will explain how you can setup a slideshow,
then we will explain how to use the static images

(how do i get my image id's?)

You can find your image id's in the toolbox by right clicking and selecting copy image id

or in the url here:

SLIDESHOW

- Step 1: Open the Slideshow config in Slideshow_controller.
- Step 2: Copy your image ID.
- Step 3: Type “rbxassetid:///” then paste the ID.
- Step 4(optional): Change the time (in seconds)

STATIC IMAGES

- Step 1: Open *static_controller . Screen . display . main . Images*
- Step 2: Select Item_1
- Step 3: Select image button and paste your image id
- Step 4: Select TextLabel and type the image name.

(Watch the video for a better explanation.)
