# How 2 Scada Smart Lighting

Version 1 - 07/2022

1 - Group lock

Open the Group Lock script

Replace the "0" with your group ID

Add the allowed rank values under "Allowed Ranks"

Format: rank1, rank2, rank3,

2 - Player lock

Open the Settings script.

Replace "xKeiron_Develops" with the first username.

To add more usernames use this format:

"Username1",

"Username2",

"Username3",

This script does NOT work with player ID's!

Note:

Special thanks to xKeiron_Develops for providing the community with the username lock version.
